Email: afterschoolavenues@gmail.com

Phone: 225-803-6482

Unique hands-on enrichment in a PROJECT-BASED format!

For grades 3, 4, and 5:

Junior Detectives/Brainbuilders!

When: Thursdays from 3:25—4:25, beginning in Sept.

Junior Detectives is CSI crime scene analysis and investigation (no graphic topics)! Deductive and Inductive reasoning, logic exercises, and observation skills are developed as we solve cases weekly in the FALL. In the SPRING, the class becomes Brainbuilders. We'll test theories by building models, and we'll use a variety of manipulatives to problem-solve as students tackle the weekly challenge. You must enroll separately for each class. There are 12 fall classes & 12 spring classes.

***Registration is online at www.afterschoolavenues.com*

For middle schoolers

CSI: St. Luke

When: Fridays from 3:25-4:25, fall only, beginning in September and continuing for 12 weeks

This is Forensic Science! We'll explore a mock crime scene, conduct ransom note chromatography, investigate mystery powder analysis, analyze fingerprints, tracks, and so much more!

***Registration is online at www.afterschoolavenues.com*

New classes for 3rd quarter on Thursdays!

Babysitting Certification for Middle schoolers - our students learn about child safety and development and leave with 25 business cards and a resume!

Junior Foodies—for the very young to explore math, science, and so much more through no-bake cooking!
